

# DRINKS PACKAGE

## 2 DRINKS POLICY

Our 2 drinks per person policy functions as a running bar tab, based on ½ the price of your selected wine. You will select one red and one white wine for the event. If, for instance, the more expensive wine is €50/bottle, the tab will calculate to €25/pp. This means for 100 guests, the minimum bar tab is €2,500. We provide attentive table service, allowing guests to order from the pre-agreed drinks packages listed below, either at their tables or at the bar. We charge per drink, ensuring bottles of wine are opened only as needed. The agreed-upon bar tab won't be exceeded without your consent, with updates provided throughout the event until reached. Any beverages restricted from the bar tab can be purchased by guests themselves. Drink tokens can be provided with advanced notice.

---
